

Subjects: Data Access

Occupation: Manager

Data type: Bank, Finance

How do I protect the bank data that I collect?

A supplier offers a range of pay to play online games. Therefore, processing the clients banking data
A computer hacker entered the supplier computer system and stole the clients data.

The Supplier closed the service temporarily.

The management revised the safety measures and the service was restored after several weeks.

The confidential customer data must be protected, and a head of security was hired which indirectly prevented a loss of prestige, image and money.

Recommendations

The controller of the data file is responsible for the security of the data he processes. He must regularly assess the security measures taking into account the risks related to data protection.

Basic principles

[CP 143](#) and [179ss](#)

Security data
